

Parents & Players Planning Calendar

Yukon Soccer Club

2011 - 2012

Travel Expected: All soccer club players are expected to travel with their team. The team will undertake fundraising to defray expenses, but in cases where fundraising is insufficient to cover all expenses parents and players will be required to pay prior to travel. If you are not prepared to travel, do not join the club program. In some cases, teams may have more players than is required for a competition, in these cases the coach, in cooperation with the Technical Director/Head Coach, will determine how to best identify the travelling team.

Additional Training may be required: At the u14 and u16 age groups coaches and the Technical Director/Head Coach may identify players who require additional training to bring their base skills up to a level that is expected in the club program. In some cases players may be asked to take this training in addition to club training and in other cases they may be asked to not register for the club program until the additional training is completed. If you have any question about whether the player you are registering may be subject to this, please contact the appropriate team coach.
